Con Corazón Outreach Report

22th February 2022 – Marampaqui

We have had an unusual sunny and warm day in Marampaqui. In this opportunity there were many men waiting for a medical and dental attention. We found out that there was a fair in one of the villages around and most of the women went to sell their products.

Activities

As usual, in this season, many patients with respiratory issues are coming over our Health center. Dr. Gustavo along with nurse Sayda visited couple of homes to deliver medicines to patients that are not able to walk due to pain.

- General Medicine: there were 24 patients. Dr. Gustavo also coordinated more home visits due to patients' relatives request.
- Dentist: 14 patients came and Dr. Flor with Indira her dental assistant were able to manage it. Unfortunately, our dental unit was not working well and had to be taken to Cusco to do some proper maintenance work.
- Laboratory: Biologist Wendy did 10 lab exams. She was also helping at triage whilst nurse Sayda delivers intra muscular injections to patients
- Pharmacy: Jhoni is very happy to be able to explain the patients the doctor's instructions. The patients understand all the details about taking their medicines.

On Sunday the 20th, Alex who is a specialist in generators, managed to fix our generator. The main problem was maintenance. He cleaned up every pipe within the engine and oil compartments. Now our generator is ready to work when needed.

Here another trout farm and is also going well. The allevyn are growing up and seems like Marampaqui inhabitants realize that this is a good idea.
