Con Corazón Outreach Report

26th July 2024 – Marampaqui

One of our Con Corazón team members is Dr. Ingriht Villanueva, who provided medical care to the population of Marampaqui. She recently entered the residency in traumatology, a specialty of medicine. She must move to Lima for a couple of years to pursue this career. We are very happy for her, but also sad because she was a great asset to our organization. We will definitely miss her and the way she treated her patients, with compassion and professionalism.

We were looking for another doctor and found Dr. Carlos Canchi, who speaks Spanish and Quechua, which is very convenient for the context in which we work. He also works in a small hospital located in Sicuani, a town three hours east of Cusco. He says that "I did not expect to work in this place. I was very happy and surprised. It is a kind of dream come true helping the most disadvantaged in this region."

Activities

Medicine, we have seen 25 patients.

Dentist, 13 patients

Laboratory, 8 lab tests were done.

Health promotion for all our patients.
