Con Corazón Outreach Report

08th August 2024 – Marampaqui

This time there was an animal fair 10 minutes from the village of Maramapaqui. That means there would have been very few patients at our medical center, so we decided to go to the fair and look for our patients. Fortunately, we can be a mobile clinic and we can transport our equipment and staff to get the services.

Many patients came, more than we expected. At this fair, the villagers take advantage of the opportunity to buy and sell their products, especially animals such as alpacas, sheep, guinea pigs, trout, etc. Some of them interchange their products instead of money. The doctors were very busy seeing patients and the rest of the staff organizing the people who came to us. It was a different experience for us with new nuances and stories.

Activities

Medicine, we have seen 32 patients.

Dentist, 10 patients

Laboratory, 12 lab tests were done.

Health promotion for all our patients.
