Con Corazón Outreach Report

27th August 2024 – Marampaqui

We finally have more space in our dental office in Marampaqui. On many occasions, the small space of the dental office was a problem. Some children needed the presence of their mothers, which filled the room. The mobility of the dental assistant and the dentist was very limited and for this reason we had to knock down the wall that separated the two rooms. In this way, we were able to solve a space problem. We now have 1 larger room where a dental assistant and two dentists can work, one doing dental fillings and extractions and the other doing dental cleanings.

This work was done by the residents of Marampaqui, specifically our patients, who have collaborated to achieve the goal. They obtained a place as a patient in the next Con Corazón campaign. We like this type of community participation because it shows a real identification with the project.

Activities

Medicine, we have seen 25 patients.

Dentist, 13 patients

Laboratory, 10 lab tests were done.

Health promotion for all our patients.

Ayudando Con Corazón
