# Con Corazón Outreach Report

22nd November 2024 – Marampaqui

Universal Health Coverage (UHC) aims to provide all individuals with access to essential healthcare services without facing financial hardship. It focuses on delivering quality health services, including prevention, treatment, and rehabilitation, while ensuring affordability for everyone. UHC helps reduce health inequalities, ensuring that vulnerable populations receive the care they need. Achieving UHC requires strong healthcare systems, effective policies, and adequate funding to ensure equitable access to healthcare for all.

At Con Coraón, we strive to achieve this by providing healthcare to the people of Marampaqui. In a meeting with the village members, we agreed that patients should pay PEN 2.- (USD -.54) for medical or dental treatment. This fee will be used for the gasoline for the motorcycle that Dino operates, as well as the maintenance of the entire facility. We are pleased that patients have responded positively to this small fee we introduced.

## Activities

Medicine, we have seen 25 patients.

Dentist, 13 patients

Laboratory, 10 lab tests were done.

Health promotion for all our patients.
